

The Halo Collection

Introducing the Halo Collection, an exceptional array of round and fancy shape diamonds in exquisite halo settings. Sparkling halos of delicate diamonds accentuate each unique center stone. Every diamond has been hand selected based on its brilliance and quality. From the classic round to the whimsical “east-west” emerald cut, each piece is as versatile as the woman that wears it.

Halo Select

Dancing with life and fire, Halo Select provides the perfect look at multiple price points. Available in classic round brilliant or fashionable cushion styles, each piece is finely crafted in 18K white, rose, or yellow gold. Delicate Italian chains showcase the sliding pendants. For earrings, elegant martini baskets ensure that our pieces fit close and comfortably on the ear.
